IMMERSIVE AUDIO (RE)-DEFINED

ALTITUDE 32

Leaving nothing to chance.

SHAPING THE FUTURE

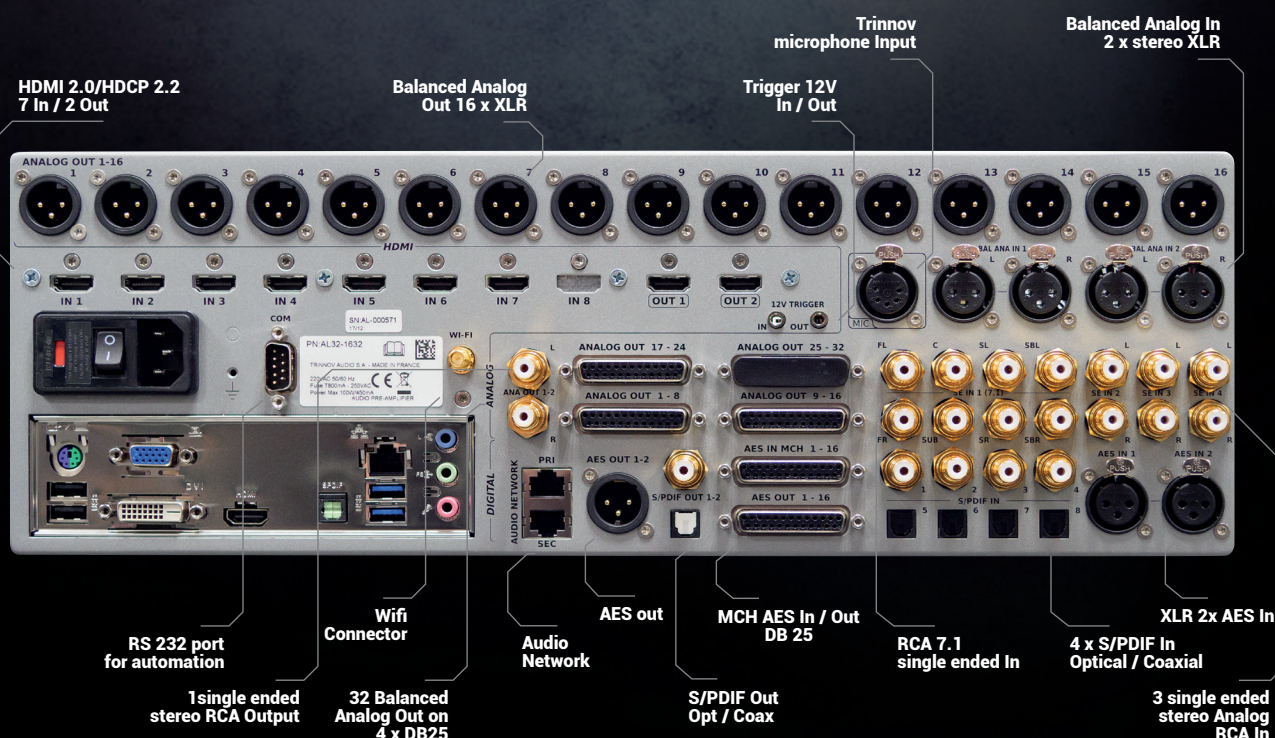

We shaped the Altitude³² to ensure an undisputed leadership in 3D sound, leaving nothing to chance: high channel count, huge processing capabilities to meet the highest technical requirements, and exclusive patented technologies to unleash the full potential of immersive sound, regardless of formats and speaker layouts.

Immersive Sound Reference

- Dolby Atmos™ (32 discretely-rendered channels).
- Auro-3D™ (supports Auro's full 13.1 layout).
- DTS:X™ (all configurations of its 11.1 format).

Ultimate Audio Experience

- 64 bits floating point native processing.
- Accurate 3D Audio playback with Loudspeaker Remapping.
- Advanced bass management & unlimited subwoofers.
- Automatic calibration up to 4-way Active Crossovers.
- Fully Compliant HDMI 2.0/ HDCP 2.2 Board.
