THE GATEWAY TO GENUINE, IMMERSIVE CINEMA AT HOME

Following in the tradition of the groundbreaking Altitude³² processor, the Altitude¹⁶ brings Trinnov's award-winning Speaker/Room Optimizer technology, immersive audio capabilities, active crossovers, and unmatched bass management flexibility to a new, slightly smaller form factor with tremendous value.

Immersive Audio Decoders

- Dolby Atmos™ (16 discretely-rendered channels).
- Auro-3D™ (supports Auro's full 13.1 layout).
- DTS:X™ (all configurations of its 11.1 format).

Trinnov Speaker/Room Optimizer

- Trinnov's exclusive Speaker/Room Optimizer.
- Calibration wizard for initial setup & calibration.
- Process high-resolution 24/96 audio.
- Four-way active crossovers & unlimited subwoofers.
- Ready for audio over IP.
